PB-END

“Terrace perimeter” fastening

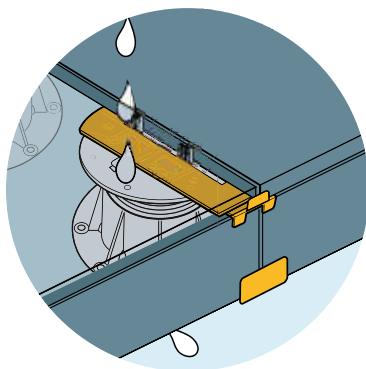

The **PB-END** finishing kit supports the peripheral slabs for cladding the edge of the space created under the terrace installed on PB pedestals. Two hooks on the top and base of the pedestal hold vertical 20 mm thick slab cuttings to ensure a solid and homogeneous finish.

NEW

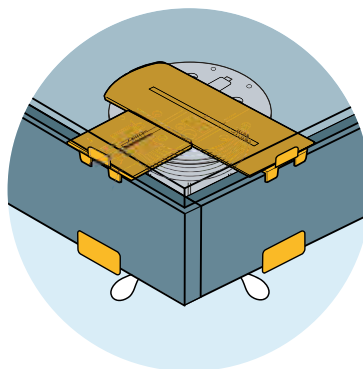

USE

The **PB-END** kit will allow the completion of the side and corner terrace finishes. In addition, the system allows quick and easy drainage of rainwater.
